Which campaigns drive the most leads?

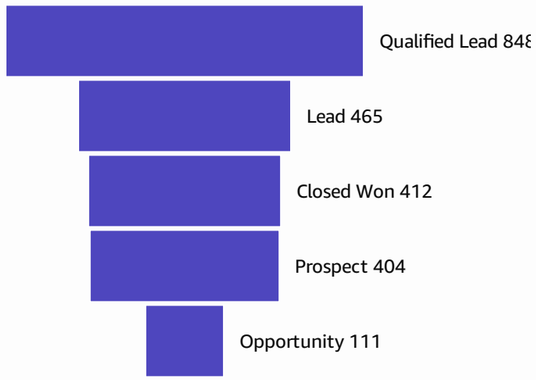

Conversion Rate by Campaign_name

NovaPulse Launch converts ~34% of ~410 leads, double Digital Retarget (~16%) on almost the same volume. Lead volume ≠ value. → Move budget toward NovaPulse-style campaigns and audit Digital Retarget's targeting next quarter.

Conversion Efficiency

NovaEdge Awareness converts only ~5% of ~270 leads, the lowest of 6 campaigns. Spend here returns the least closed business.
Pause it or re-target it before the next budget cycle.

Revenue By Industry

Healthcare brings in ~$140K, about 20% of the $707K won and far ahead of any other industry, despite a healthy 63.13% win rate. A Healthcare slowdown would hit revenue hardest.
→ Build Retail and Technology pipeline as second and third revenue pillars, and review the 66.76-day close time where deals stall

58.2

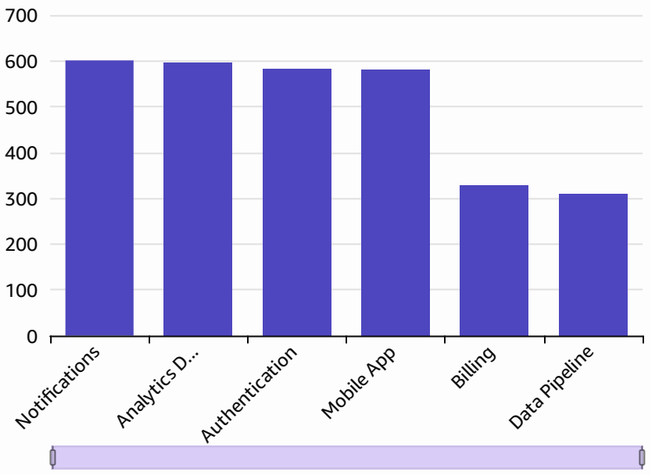

Total Downtimes VS Sum of Annual Revenue By Industry

SHOWING UP TO 2500 DATA POINTS

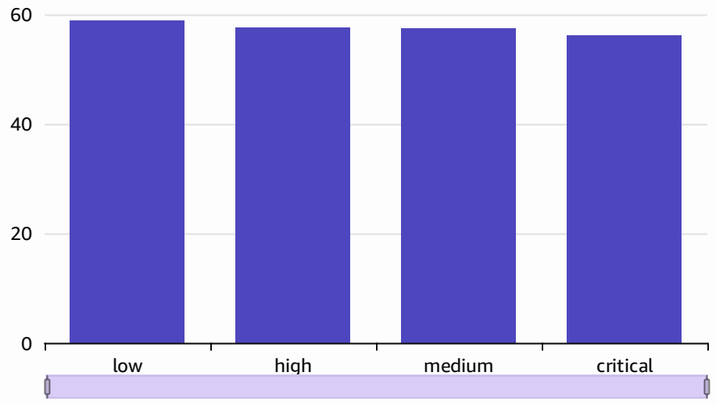

Retail and Software have both the highest revenue (~$280–300K) and the highest downtime (~95–100K) of any industry. The most valuable accounts carry the highest churn risk.
→ Give high-downtime Retail and Software accounts dedicated account managers and faster escalation before renewals.

Support Ticket Volume By Product Area

Average of Resolution Time In Hours by Priority

Critical tickets take 56 hrs to resolve vs. 59 hrs for low priority, only ~3 hrs faster across 3,000 tickets. Urgent issues aren't being fast-tracked.
→ Set a separate, much shorter resolution target for critical tickets and track it on this sheet
